**Electronic Validation of Academic Documents**

With a view to ensuring a higher degree of documental security in international communications, in addition to promoting sustainable managerial practices, the issuance of English-language versions of academic transcripts, diplomas, certificates of enrollment and degree confirmation letters is now made available exclusively in downloadable electronic format.

The above documents may be checked for authenticity by following the instructions seen in their page footers. Once the electronic validation procedure has been carried out successfully, they should be considered official secure documents for verification purposes. Please note that the Integrated System for Academic Activity Management (SIGAA) and the Electronic Information System are the University's official document issuance platforms, ultimately operating under the auspices of the Brazilian Federal Government. This innovative possibility is designed to expedite mobility opportunities inasmuch as no manual certification by the translation team is required. Below are instructions on how to confirm document authenticity.

Sincerely,

The Translation Team
